

# Extended Care

As an extended care facility, connecting to HealthConnections can provide crucial information when it's needed most - at the point of care. Here are a few examples of how your organization can benefit:

## Receiving a new patient?

The National Provider Directory through Direct Mail lets you send and receive visit notes directly from other organizations.

## Need a clear view of a patient's medical history?

Patient Lookup lets you download laboratory results, radiology reports, medications, allergies, problem lists, and more.

## Need to close the loop with your patient's primary care provider?

myAlerts uses real-time analyzed information to automatically generate a clinical alert and send it to subscribing providers.

# How Can HealtheConnections Help You?

## Patient Lookup

Consolidated patient information from hundreds of data sources create a comprehensive clinical record, available at the touch of a button. Medications, allergies, medical history, labs, and more!

## myAlerts

Receive clinical notifications customized to your preferences in-region and throughout New York State. Filter and subscribe to alerts by patient, hospital, or consent, and receive through secure Direct Mail in real-time, daily digest, or even by SMS text message.

## Direct Mail

Secure, HIPAA-compliant communication for fast and easy care coordination. The intuitive system allows for live chat, sending and receiving attachments, and contains a national provider directory to connect you to referral partners.

## Query-Based Exchange

Connect to other state and federal partners including other regional HIEs, the Veterans Administration, the Department of Defense, the New York State Immunization Information System, and more.

## Results Access & Delivery

View results directly in the HealtheConnections portal or delivered into your own system for easy access. Cut down on waiting for faxes or phone calls - no need for a lab interface or electronic health record system.

## Image Exchange

Eliminate reliance on the patient to bring in their disc. View diagnostic-quality images easily and efficiently for comparative studies directly in the provider portal, or have them delivered into your own PACS through Transfer-to-PACS.
